

KCFFI Assessment Team meeting
April 25, 2008 12:30-2:30pm
Gould Hall room 440

Our KCFFI Assessment Team meeting will cover the following:

1. Quantitative Assessment

Review the Built Environment and Food System Indicators to further prioritize what quantitative work will be completed this spring and summer by UW and Public Health (the spreadsheets are attached, please review again before our meeting if feasible) with specific outcomes of who is doing what and by when.

2. Qualitative Assessment

The cross-section of the above indicators with the qualitative assessment in the focus communities that Roxana Chen will be working on between now and end of summer.

3. Youth assessment

If time permits, we will explore the youth assessments as it interrelates with the above work.

4. Assembling Audit tools for community and youth assessments

If possible, please bring any audit tools you have/use in the following areas: parks, schools, bike/ped, food systems/market basket for us to start assembling options for community resident- and youth- driven assessments.
